

Residents and businesses of the Municipality of the District of Lunenburg are advised that waste may be collected differently at times during January and February 2019.

How is waste collected now? Garbage, organics, blue bag recyclables, paper and cardboard are collected at the same time, **by one truck.**

What could change? One truck will collect garbage only, and another truck will collect organics, blue bag recyclables, paper and cardboard.

Collection times may change slightly, but all of your waste will be collected by the end of your regular collection day.

Your collection day and the way you sort waste will remain the same.

Ensure your waste is roadside by 7:00 am on collection day.
